07_Security_Metrics_Report

1. Executive Summary

This report provides a high-level overview of the Security Operations Center (SOC) performance during the April 2026 Adversary Emulation incident. The primary SIEM (Wazuh) performed within expected parameters, successfully alerting on the high-criticality remote code execution attempt against the legacy infrastructure.

2. Key Performance Indicators (KPIs)

To evaluate the efficiency of the SOC team and our automated SOAR playbooks, the following incident response metrics were recorded:

- **Mean Time to Detect (MTTD):** 15 Minutes
- **Mean Time to Respond (MTTR):** 5 Minutes
- **Critical Alerts Escalated:** 1 (Samba CVE-2007-2447 Exploitation)
- **False Positive Rate:** < 5% during the targeted emulation window.
